

TEMPLATE FOR APPLICATIONS FOR AUTHORISATIONS

under Article 5 paragraph 2 of Council Regulation (EC) No 2271/96 protecting against the effects of the extra-territorial application of legislation adopted by a third country, and actions based thereon or resulting therefrom ('Regulation')

Criteria for assessing possible applications for such an authorisation are laid down in the Commission Implementing Regulation (EU) 2018/1101. This template aims to help EU operators consider and submit a possible application, by providing the basic elements to be taken into account in such an application.

The possibility to apply for an authorisation is foreseen as an exception in Regulation (EC) No 2271/96, which does not create an individual right for the applicant to obtain an authorisation. The Commission will assess each application and provide the applicant with a succinct motivated decision.

In addition, please bear in mind that the authorisation procedure should not be used to seek so-called "letters of comfort" from the Commission or confirmation that business decisions are in line with Regulation (EC) No 2271/96.
